SOFTWARE ENGINEERING

About Me

I am Bethemariam Asrat , a software engineering graduate with Full stack and mobile app development expertise. With a strong foundation in computer science principles and programming languages, I am a full stack developer proficient in front end and back end technologies. On the front end , I can create intuitive and responsive user interfaces. On the back end , I can develop robust and scalable server side applications. In addition to technical skills, I possess strong problem solving abilities and a keen attention to detail, these qualities enable me to quickly identify and resolve issues, ensuring that software projects are delivered on time and to a high standard.
